Clarification of Maintenance Methodology for All S-Network Equal Dollar Weighted Indexes

(New York, February 23, 2016) Effective immediately, the proceeds of spin-offs and special cash dividends will be reinvested directly in the affected company. This differs from the methodology employed by capitalization and factor weighted indexes, where the proceeds of spin-offs and special cash dividends are reinvested in the index constituents on a proportional basis.

This rule clarification applies to the following indexes published by S-Network:

- S-Network Sector Dividend Dogs Index (SDOGX)
- S-Network International Sector Dividend Dogs Index (IDOGX)
- S-Network Emerging Sector Dividend Dogs Index (EDOGX)
- S-Network Sector Leaders Index (SLDRX)
- S-Network Sector Low Volatility Index (SLOWX)

More information about the indexes can be found at <http://www.snetglobalindexes.com>.
